PROFESSIONAL SUMMARY

MERN Stack Developer with practical experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in RESTful API development, component-based frontend architecture, database management, and authentication systems. Passionate about clean code, scalability, and delivering responsive, dynamic web experiences. Adept in agile environments and collaborative workflows using GitHub.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Seth Vishambhar Nath Institute of Engineering and Technology, Barabanki

(Sep 2021 – May 2025) | CGPA: 8.39

Intermediate (Class 12th) (UP Board)

(Apr 2020 – May 2021) | Percentage: 80%

High School (Class 10th) (UP Board)

(Apr 2018 – May 2019) | Percentage: 76%

WORK EXPERIENCE

MERN Stack Developer Intern - Softpro India | June 2025 – Present

Worked on full-stack web applications using the MERN stack. Developed reusable React components, built RESTful APIs with Express.js, and managed data using MongoDB. Implemented JWT-based authentication and handled session management. Collaborated in agile sprints, used Git for version control, and contributed to debugging and performance optimization.

TECHNICAL SKILLS

Languages: JavaScript, Node.js, Python

Web Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js

Frameworks & Tools: Node.js, Express.js, Django

Databases: MySQL, SQLite, MongoDB

Soft Skills: Team Collaboration, Communication, Time Management, Problem Solving

PROJECTS

E-Commerce Website

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack e-commerce application featuring product listing, search, filtering, and cart functionality. The frontend was built using React with reusable components and styled using Tailwind CSS. On the backend, Express.js was used to create RESTful APIs, and MongoDB handled product and user data. Implemented user authentication and integrated secure cart operations for a seamless user experience.

Real-Time Chat Application

Tech Stack: React.js, Node.js, Express.js, Socket.io, MongoDB, Tailwind CSS

- Built a full-stack real-time chat application enabling one-to-one private messaging. Used Socket.io for real-time communication and Node.js/Express.js to manage server-side logic and API endpoints. MongoDB was used to store user and message history. Implemented secure login with JWT authentication, along with features like typing indicators, online status, and responsive chat UI using Tailwind CSS.
-

ADDITIONAL INFORMATION

Certifications: Responsive UI/UX Design – freeCodeCamp,

Python & Machine Learning – GUVI

Languages: Hindi (Native), English (Proficient)

Extracurriculars: • Participated in coding competitions and hackathons • Recognized in online programming contests • Completed technical assessments and online learning paths.
